17 TO COME

For Perfect Functionation

the blood requires a supply of red cells and hemoglobin of normal quantity and integrity. Whenever Anemia supervenes Pepto-Mangan (Gude) may be depended upon to stimulate general constitutional reparation, by feeding to the blood the ferric and manganic material necessary to create the essential blood elements.

Weather

Temp.

Very cold snowed some not much. John took a goat to mill & paid his tax. Girls drove to school. Carl Adams came home with the girls & stayed all night. Leans & Bell was here. John let the calves get away, & had to chase them nearly to John Skinners. Yesterday Albert was up for apples.
