Fri 7. Pretty cold yet but better than yesterday. Paul & Arthur cross cutting hay, then over to Arthurs. cut up a lot of goodwood. I churned & worked the butter 2 lbs. Kept Mr Gordon home he had such a cold in his head. Takes me all day to get meals & wash dishes a great deal warmer than. Hattie working on Mrs McCredies waist. Mag never came home.

Sat 8 beautiful sunshine thawing. Paul went down to Chippawa to get Marjorie. took Wells sleigh & Topsy here she came by Frazers got a chance with Jim Tuplis Arthur helping Allen to extract bad logs. I blacked the stove pipe & stove. Paul got 1 lb tea 30c. Hattie got ½ of butter our hens started to lay one on sunday & yesterday I am boiling.

Wed 9. thawed all night - caught a barrel of water. This forenoon dripping of the house in the afternoon started snow small snow got worse towards night & colder wind blew at night & snow not so bad they were going to Reaoleys going to have a sleigh load but did not go Marjorie sick all day. Arthur over on Allens bush in the forenoon went up to Mrs Credies after the snow she went up there last night. I finished the hair today & mended Pauls coat shoes Lue Rieminger in last night.

Thurs 10. sunshine but better cold Arthur went to Chippawa in evening 1910

Fri 11th Mary Ann took sick this evening

Phoned for Dr McLeod he pronounced it Pleuratic pains & a very heavy cold. A fearful cold day & stormy

Sat 12th McLeod came today thinks not pneumonia

Sun 13th Dr McLeod " pronounces her not dangerous

Mon 14th Mary Ann sent Paul to Chippawa to see if McLeod not to come for a day or so as she felt so much better

Tues 15th McLeod did not come

Wed 16th " " " " the got up & sat in Rocking Chair

Sat 16th Dr McLeod came & got felt better but was very weak slept up for about 1 hour.

16th
Visit Dr McLeod here & brought here some nice beefsteak & cooked it for her & she said it tasted so good

Thurs 17th
After going to bed from sitting yesterday she took very much worse sent for Dr McLeod he pronounced it at that time bronchial pneumonia the steadily grew worse until Tuberculous Pneumonia set in

18th McLeod Mary Ann still worse but not seeming to suffer so much But Dr McLeod says that is a very bad sign her heart is very bad

19th McLeod here went over to Coles & told them "there was no hope"

20th McLeod Gray & Elliott here, moved Mary Ann in front room McLeod Elliott says if she lives & improves for 48 hours there is good hope for her. Put her under hypodermic injections

21st Stays about the same

22nd "

23rd Takes a bad turn & begins to truly put on an awful night. Weather below zero

Feb 24th At ten minutes after ten the breathes her last conscious to the last moment & praying continually "She is dead yet speaketh"

"Come to live with Jesus"

Feb 25th - - Bitter cold

Sat 26th Mary Anns Funeral
