

We had tea over there and when we come home I drove down after tea and picked Mary up, she had been at a party at Mrs. Freeman's and stayed down to tell phone Dr. Hicks and found her Dad. was doing nicely.

Saturday July 30th

Frank went back to try to plow this morning but said it was very hard and the shears cooler dull. Dad. weeded potatoes and I didn't do any thing much, but clear up a little out in front of the house. Mary. went down town this afternoon and stayed to tea. I drove down after tea and we went to the station and met Dorrie, the train was late and she was pretty tired. Dad. Frank and I weeded potatoes this afternoon and got nearly three rows done. A little cooler later, with big winds

Sunday July 31st

The Pickfords had a family picnic down the Lake Shore to-day so of course Frank had

to go along. Mary. Jim & I went to Sunday school and Enah & Dorrie drove down to church. Mr. Doherty preached. Dad. walked down to see Aunt and he, Enah & Sid went to Clara Kerrings for lunch. Mary. & Dorrie took some sandwiches down and ate them at Aunt's after church & then went on the one o'clock car to Brentford to see their father who is getting on as well as possible. I come home & did chores and slept for most of the afternoon. Enah stayed down to play again to-night as Mrs. Andrews is sick or something. Dad. drove Mexico home. Dad. Frank & I had tea together and then I took Mexico down so that Enah & the girls could all drive home. It gives me the willies to ride behind him he goes so slowly so I led him down as far as the Sheeps where I found Larry & Sid & Berby Zealand who jumped at the chance of driving him down. I found Mary. & Dorrie had come in on the first car, gone to the Bagley's for tea and from there to church and the Barwells were going to drive them home but Mary. was good enough to drive me home with Mexico instead of going in the car. Cooler
