

waste as I picked a bushel or so off one tree and put them down cellar. I think they are Colobos. This afternoon I went up to Shoffs and got the time of the barn this morning and pulled one side of it. It of the gravel teams for the last two weeks. I come was an awkward job as it was not planted in rows back through town. I went down to band practice crosswise and the summer grass & this they were very to-night. The band put in a tender to play at the Sincos Fair but as they expected were turned down and I went down with them. Frank and I took it to the and Waterford has it for two days. Cloudy and cool factory and Dad stopped at the Woodson's to get some old boards out for us to load on. Mrs. Woodson told Aunt they could have it for fire wood. but Aunt said they didn't need it so told me to get it. There is a lot of good stuff for kindling in it. We had 1210 lbs of corn on which brings my total up to within 140 lbs of 6 tons. Dad & I put the load of wood on and Frank and I went home to get fixed up to go to the Sincos Fair to see with Miss Gandy, a girl he has picked up as a spare till Gene gets back from England. I suppose we got out again after dinner but there was only half a road way left so we pulled it. Jim come home from school this fore noon with a free ticket to the Fair so he and Dad went up on the one wheel car. I took Harry Bover there with me. I drove Ina home to-night. Cloudy with cold north east breeze

Tuesday September 29th

I went over to the farm this morning but didn't get over very early as I had to fix up the fence again where Mary broke it down jumping it. We pulled a little more than what was pulled yesterday and took it down to the factory before dinner. Frank went home to get fixed up to go to the Sincos Fair to see with Miss Gandy, a girl he has picked up as a spare till Gene gets back from England. I suppose we got out again after dinner but there was only half a road way left so we pulled it. Jim come home from school this fore noon with a free ticket to the Fair so he and Dad went up on the one wheel car. I took Harry Bover there with me. I drove Ina home to-night. Cloudy with cold north east breeze

Wednesday September 30th

I cut a road through my little patch of corn back this morning and pulled one side of it. It was not planted in rows crosswise and the summer grass & this they were very to-night. The band put in a tender to play at the Sincos Fair but as they expected were turned down and I went down with them. Frank and I took it to the factory and Dad stopped at the Woodson's to get some old boards out for us to load on. Mrs. Woodson told Aunt they could have it for fire wood. but Aunt said they didn't need it so told me to get it. There is a lot of good stuff for kindling in it. We had 1210 lbs of corn on which brings my total up to within 140 lbs of 6 tons. Dad & I put the load of wood on and Frank and I went home to get fixed up to go to the Sincos Fair to see with Miss Gandy, a girl he has picked up as a spare till Gene gets back from England. I suppose we got out again after dinner but there was only half a road way left so we pulled it. Jim come home from school this fore noon with a free ticket to the Fair so he and Dad went up on the one wheel car. I took Harry Bover there with me. I drove Ina home to-night. Cloudy with cold north east breeze

Thursday October 1st

I went over and lit the fire at the school house this morning forgetting that Jim had told me there
