271 DAYS PAST

Saturday

95 TO COME

Functionally Active Blood

must be restored after the subsidence of the fever and acute symptoms of malarial infection. **Pepto-Mangan (Gude)** supplies organically combined iron and manganese, the twin hematinics, in such promptly absorbable and assimilable form that the blood cells and hemoglobin are rapidly renewed and reconstructed.

Weather

A bright

Temp.

day John & Charlie Young's finished cutting the corn; Mrs Appleford & Gene brought Grace here from Apliner Grace brought a cloth to make her a new blue skirt. Eugene Sweet was over for dinner & a plank to make a wagon reach Mariah &
