237 DAYS PAST

128 TO COME

During the Convalescence

from typhoid, pneumonia, la grippe or other serious illness, **Pepto-Mangan (Gude)** is especially indicated, because, being palatable and non-irritant, it does not impair the appetite, disturb the digestion, nor produce constipation.

Weather

Temp.

Fine
Cleaned house & baked
all day. Aleta went &
helped her mother wash
boys finished drawing
our coats for her & she
helped Aleta & Eugene
was to Ayleen
