

Took Bertie and Cecilia with me to church this morning. Did not feel as much profited as our other days, but, the Lord was with us, in due very much. Spent the balance of the day at home in reading & meditation. ~~felt~~ not without being blessed thereby. Was somewhat unwell so might from having eaten something for dinner that did not agree with me. Did not go to church this evening on account of darkness and rain.

My soul is greatly drawn out after God.

Did not have a very good night's rest on account of illness. Got off with Cecilia this morning however & took her to Dover in time for the eight o'clock train.

Called at H. J. Carpenter's and at Mr. Stamps to make enquiries about a servant girl. Have spent the whole day in trying to find one. With the exception of Miss Marianne Williams who promised to come next Monday if we wanted her at that time, I have failed to make a success of our day's labour. Hisley has been drilling wheat again 2 days
