43 DAYS PAST

322 TO COME

The Inorganic Salts of Iron,

if regularly ingested, irritate the sensitive gastric mucosa of some patients. The ferruginous content of **Pepto-Mangan (Gude)** is in the form of an organic peptonate, and exists in its most tolerable and acceptable form. It may be given regularly, as long as hematinic and tonic medication is necessary, without irritating the stomach or producing constipation.

Weather

Bright & thawing Temp.

Sleighting going very fast
Girls drove to school. Aluta
was over & Pa went down with
her down to Adlan's after a
calf. Eugene & Jim are both
sick & Aluta has a very
bad cold. Wilfred is done.
Anna Marshall road to Aylmer
with the girls. Joe has gone
to King's mill. Louise is a
little better. Joe was drawing
manure all day
