169 DAYS PAST

196 TO COME

A Distinctly Apparent Blood Poverty, especially when verified by hematologic examination, requires a definite and dependable anti-anemic. **Pepto-Mangan (Gude)** not only restores the red cells to their normal condition but also creates new erythrocytes and materially increases their hemoglobin percentage.

Weather

Very warm

Temp.

Maudie took Mella, then  
her & Mrs. Eline went down  
to the cemetery. Two winners  
had a run, away down  
here one was a Misses Harper  
& her daughter. John & Joe  
helped. Lewis Green hay,  
has home all day. Loring  
chases & went down in the  
woods for straw-berries.
