**To Sustain and Maintain Vitality**

and to stimulate the formation of erythrocytes and hemoglobin, nothing is equal to **Pepto-Mangan (Gude)**. It establishes, sustains and maintains the vitality of the circulating fluid and thus meets the imperatively necessary therapeutic indication in Anemic, Chlorotic and generally devitalized conditions.

**Weather**

**Temp.**

A very cold wind blowing all day, and to night it is raining. John & Frank have been cleaning up out this afternoon. We washed this morning & Helbe is coming to night. Mrs Van Wagoner came home from London to night. Mrs Helbe at the hospital Birdie Cavalry died to-night at 10.30
