

Thursday April 28th

We put the rack on the wagon this morning and Frank and I went over to Tom & Mark's and got a small jay of straw. Dad went over to John Weiss's this morning and visited him till afternoon. Frank and I put off the straw after dinner and then I finished raking up the lawn. Dad helped me. So night ^{Frank} Mary and I went down to a Sunday school meeting to give Miss Morris who is going to act as superintendent some information. Mary and I then went to the concert which the Senior musical club put on for the benefit of the Y. M. C. A. work. I had to play in the band during intermission and before the show started. There was a very small crowd but the concert was good especially Judith's & Murray Miller's performances. It has been a busy day.

Friday April 29th

I have felt very tough all day with a bad cold and haven't done any thing but help with milk all day. It was cold & rainy most of the day anyway. Dad & Frank clipped Mexico this morning. Jeff Selfer and a Scotch man come down this morning and castrated 10 lambs. Dad & Enoch

went down to Pinafee practice to night. Frank went down to Pickford's to see Irene and the rest of us went to bed.

Saturday April 30th

I haven't felt much better to day and Dad has felt about all in too with the same kind of cold. Enoch stayed in bed till noon. Frank and I hauled over a small jay of hay in the wagon box to the barn & have stable and we bagged up six bags of oats which Frank took down for a grist. They are going to close the mill down Monday for six weeks for repairs to the mill. Frank went down town this afternoon and got some clothes to rig Dad out for "Pinafee". Oliver Mann & Harry come through this afternoon with a dandy coon which Harry's dog had killed out in Shand's woods. They were here about an hour robbing all the sparrow's nests they could find. Sid has had a great string of visitors to day. Two farmers & a Merland were over this morning to catch rabbits but failed. Alvin Wisener was here for dinner and two of Ben Sweig's kids were over this afternoon. Gus Thompson was in to look at the pump and Charlie Muroe come to ask Dad about a sick horse. Frank went down to see the Lewis boys to night as I felt too tough. Cecil & Claude
