25 DAYS PAST

340 TO COME

The Periodic Estimation

of erythrocytes and hemoglobin percentage almost invariably demonstrates an increased functional efficiency of the blood after the regular use of **Pepto-Mangan (Gude)**. This hematonic tonic quickens all of the normal anabolic efforts of the economy and thus assists materially in the absorption, assimilation and systemic appropriation of the nutritional elements of the natural food stuffs.

Weather

Temp.

Rather warm
Sun shining ^{in the afternoon}. Washed, John
went to the factory & then
to Kingsmill & got the horses
shod. Maudie was home
all day not well enough
to go to school. Snowed.
It's a lot last night
& snowed until after ten
John went to Aylmer with
Clarence this afternoon. Mollie
Billey to Dell to ^{went to school} school. Polly to ^{at home} home.
