

frozen stiff but it is beautiful a pair of eyes will
be all right I think. We got in one load of corn stalks on
Saturday and they are in good shape and there is some
fine corn in them. I went up to a meeting of mentors
which Manning called in since we are in night. and left
Mary here alone to go to bed early as she has a bad cold.

Tuesday November 16th

Just a month ago today that we were married and I
am just beginning to get settled away to regular habits
but we have had a good time. Mary's cold is very
bad to night, she feels quite sick I think. She got
up early and has worked hard all day as she expected
a joint attack from the school teacher's but Miss
Queen telephoned at the last minute that they couldn't
come. Frank and I put off the load of corn stalks but
we hauled in yesterday and then went down after
a load of freight which just came in for Mary. I went
all her things from home which her Dad. had packed
and shipped to her. It made about a waggon load
I opened them for her at noon and she unpacked
them and it was a very tiresome job. but she wanted
to get a lot of the things. This afternoon Frank and I took
some oats to the mill to be rolled. Dad ploughed all day. Frank
went down to stay at Aunt's to night and is going with Neph
on a judging trip to morrow & O. Still cold and cool snow storm

Wednesday November 17th

I was up at 8:30 this morning and found a fierce east wind
and snow storm raging but not very cold. We expected Frank
wouldn't get at Aunt's till night back but he didn't come so
we suppose he must have gone with Neph. Although we
didn't think they could get there on account of the snow.
I drove Sid down to school and went on down town and
got some meat and bread for Mary. Dad. and I chree the hay
that was on the floor of the big barn upon the snow and left the
calves in their pen shelter. I didn't go over to the farm very early
after dinner as I should do all the snow as Mary was receiving.
Aunty Alice came over early and Euk was here. I husked
some corn this afternoon. Mark came over for a while and
Dad. drove him down town with Queen and then he came
back and stayed at the farm for his. Aunty Alice had tired
surplus, she being the first one to break bread with us in
our own house. Much milder to night.

Thursday November 18th

Frank didn't turn up all day but came home in night
and said they did go to London in Neph's car and saw the
stock at Woodworth and Col. M. Ewen's. Dad. and I have
just done chores all day. The snow and the frost make it
impossible so far to do any thing with the turnips although
it has thawed a great deal today and is not frozen in ground
tonight. Euk had a tea party for Mary. This afternoon
