

side hill and took the disks back late this afternoon: the disks cut down to the mud but the top works fine. I went down to band practice to night. Very mild & fine.

Wednesday April 23<sup>rd</sup>

Frank and I sheared another ram this morning but it took quite awhile and we had to put on a load of straw to take over to the horse stable so we only got the one done. Dad went back and disked the side hill this morning and drilled it in this afternoon. It was a hard job he said drilling on the hill as several times he lost track of his drift mark. Dad hauled over load of straw over to the horse stable and Frank and I put it off right after dinner and supper. Dad went back to the field he hauled the sack over to the barn and Frank and I put on a load of hay. It was so late when we got it on that we didn't have time to shear another ram. Aunty Alice was over to dinner and Eukh drove her down with Mexico this afternoon. Eukh got a lot of groceries which Melissa asked me to get and I drove over to Suppers to do chores. It began to rain which I was over there and rained all evening. I went down and got my hair cut to night and took my

been down to practice but it was so late when I got around that they were all through. I stayed all night down town as it was such a bad night. Very warm & sultry all day.

Thursday April 24<sup>th</sup>

I got home at six o'clock this morning and helped do chores. It turned cold during the night and has been cloudy, cold and a north wind all day and several times it has started to snow. I went up to Simons on the 11 o'clock car and went over to Shaght's office but was very disappointed to learn that nothing had been done about the "Sheep Pasture" Shaght is still sick and not expected back in the office for a month. I went in to see Neff for a few minutes he had a Mrs. May in there who is going around organizing the county for Y. M. C. A. work. They said they were coming down to Denver this afternoon. Neff said that the Court land boys would be down at the club to night to give their debate and advised me to see Mr. Johnson and ask him to act as our judge as the Court land boys were going to bring one down. When I got home Dad & Frank were at Aunty's after the ridge boards for the roof under
