99 DAYS PAST

266 TO COME

The Anemia of Adolescence

is not a negligible quantity and should never be ignored. The correction of improper hygienic conditions, and injudicious habits of feeding, should be supplemented by the use of a non-irritant, readily absorbable, non-constipating hematic, such as **Pepto-Mangan (Gude)**.

Weather

Temp.

Warm but varied
 raining about eleven & has
 kept misting all day, off
 on. John & Mark went to Eng-
 enes to see grass seed, after
 they finished sowing his. Maudie
 went to Aylmer & got some
 more garden seeds & Joe & I
 planted the little garden.
 Then Eugene was over for
 dinner & brought the paper
 home & Maudie drove him
 to Aylmer after dinner. Joe
 & I started the flower garden
