

few chores, by the time I got back here after taking the
way for home, it was dark. I took the old harrows over to
John Evans for him to sharpen them. Dad & Enah drove
me about four with a bundle of clothes they were taking
out to the Doves, who evidently will not look for plowing

Saturday March 30th

We all went to town again today and had dinner at
Auntys. Quint was there and had his new clock on
the side board which he has been building for the
last few weeks. It is walnut and certainly is a beauty.

Mary had to go to the dentist this afternoon and Quint and
I went up and got Auntys mail stopping in for a while
to visit Mr. M. Lewis in his work shop. He is another
worker in walnut. Dad & Enah were down. Dads tooth is
still very sore. Another mild Spring day but rather cloudy.

Sunday March 31st

I swept the school house out this morning and did a few
chores and about noon Mary & Harry B went up to the
Sheds. Mary wanted to see Flossie about taking the Dove
hens for dinner. Mary has had them all this last week
and Flossie said they would take them some time so

Mary has to go to the dentist again to narrow she wanted
to be free of them. She left me to boil the potatoes and feed
Gay and said she would be back as soon as Flossie got
home from church. I boiled the vegetables but Gay went
to sleep before they were done so I had a most enjoyable
and peaceful read till the baby woke up and then I
played with her as I didnt know what to feed her.
Mary, Harry B & Flossie came back about half past
four and Flossie stayed for awhile and then Mary got
me some dinner and I did up my Chores. Beautiful day.

Monday March 32nd

I spent the forenoon cleaning the two chicken houses. And
the dropping boards hadnt been cleaned all winter it
was quite a job. I let the chickens all out as it was
a lovely day and let the chicken house floors stay bare
all day to dry. and then put straw in to night. We all
went to town this afternoon and Mary and I both went
to the dentist and got finished up with him. We left all
the kids at the farm as Auntys & Auntys Alice went to Seneca
to get a carpet. but didnt have any luck. They were home before we
left town. We saw three robins in Jack Martins colony field
on our way home. Very mild S.E. wind raining a little to night.
