

half past five I drove up to George Duncan
and got seven sitting hens. I didn't get back
till nearly seven but Mary came over to the farm
for tea so we stayed there for the evening. Mr. Zeland
I think went down and had tea with the Bahnay
Allens. He just got home before we did and had a fire
built in the grate for us so we had to go in there &
visit before going to bed. He had a lot of fun at
putting his white ducks in the pond. He has been pretty good

Friday March 11th

We were late getting around this morning. I left Mary
in bed until I got up. We had a very good breakfast
and then scooted for the farm. I did some work & made the
ditch a little deeper this morning and Frank went
down to see how Annie made was & take him to
school. After dinner I helped Mr. Zeland connect
his water pipes as he is very anxious to get his engine
& pump going so that Mary can have running water
in the house. But I broke a piece of pipe and he couldn't
get his engine going so we quit. I had my sitting hens
Thompson likely to sit. Mary went down to stay with Aunt
Ida while Aunt & Aunt Alice were up with Aunt Nancy & Clara
and we couldn't find Mr. Zeland when we got home so had
tea & the evening to ourselves. He came in after we went to
bed. He had been doing halibut Mrs. Capt. Sherry on his piece.

Saturday March 12th
Mr. Zeland got up before five this morning and when
I came down was bound to visit so that I was late getting
over to the farm again. I just helped Frank haul a couple
of pigs of my sheep to the old barn & the horse stable and
then came home to catch the one o'clock car for Jimmie
Mr. Zeland & Art Shanbury went on the same car to
Hamilton. Mr. Zeland had a borrow five dollars from Art
to get home as we didn't have it to lend him. I went up
and paid for the share in the Co-operative Co. got Adam
Thompson's address from Slaght's office and then went
to a meeting of sheep breeders that they notified me of. There
were only about half a dozen of us there but Selfer gave us
a very good talk on forming an organization for the
purpose of improving our flocks & selling our surplus
stock to a better advantage. I came home at five to find
Mary laid out on the floor. She having fallen down stairs
and bruised & skinned herself terribly but not seriously.
I got a sort of bed ready & the boys came over to night

Sunday March 13th
Mary got up this morning & we were to get up this morning so
had breakfast in bed and I went alone to Sunday
school and church. I read her class in with mine
and had an awful time with them. We had
dinner at Aunt's for dinner but
