210 DAYS PAST

155 TO COME

Diagnostic "Mays and Musts"—No. 2.

Mental symptoms in a person who is a fit subject for nephritis should not lead the physician to suspect a cryptogenic psychosis, but, first of all, a kidney disease. Such persons are sometimes committed to a hospital for the insane and no inquiry made as to the urinalysis.—*Williams; Med. World.*

Weather

Sprinkled a little, Temp.

John went to Mill & this afternoon they fixed fences & cut weeds. Maudie & Aunt Ella went to Kingmill this afternoon. Maudie & Stella went to Aylmer. Maudie took her second singing lesson. Mrs M^r & Boy was here for a few minutes this afternoon. Boy & his mother was to Kingmill & stayed a few minutes at the gate. Carlton was here on his way from Aylmer.
