

down to get Dad but as his train was late they didn't get home till quite late. Dad had a pretty good time at the fair I guess as it was a lovely day. Ray came up to night too.

Saturday October 12<sup>th</sup>

It rained a little during the night so was too wet to do any thing at the clover seed this morning. I started to make a crate to ship Mr. Bault's sum tank in but didn't finish it. Dad and Frank cut up some wood and brought in the cabbages from the garden with the team and waggon this afternoon as it was a nice day and Mary is going to be in Naticoke over Thanksgiving day (Monday) she and I went after chestnuts. We went up north of Victoria and only stopped at three trees but got a lot of nuts, they were thick on all the trees. We got requested to leave one tree by an angry farmer so we did. After we got all the nuts we could. It was a lovely afternoon and we got home before dark. Dad and Frank hauled in the clover seed that was hunched up but the rest was a little too wet.

Sunday October 13<sup>th</sup>

Dad, Ersk and Sid drove down to church this morning and I walked down. Frank didn't go down as he

wanted to go after chestnuts this afternoon early. This afternoon I drove Mary down to the Daughters at Naticoke and left her there to spend Thanksgiving day. They invited me to stay to tea but I didn't and got home here in time to have tea and do chores. Ray and Vernon were here but they didn't stay long as they wanted to go to church to night. Dad and Ersk were down there this afternoon. Frank went after chestnuts but didn't get any. I don't know why. He went up to Bowley on the car and cut across south where there are lots of trees. Dad says where we were yesterday there were lots of nuts. I didn't go down town to night. This morning there was a south wind and the air full of smoke which made every thing look very queer. A north wind got up about noon and the air cleared but got colder.

Monday October 14<sup>th</sup> (Thanksgiving Day)

We finished hauling in the clover seed today. We went back this morning and Frank finished raking and Dad and I hunched up and brought one load up before dinner and this afternoon put it off and got the rest in one load and put it off. Ersk and the baby went down to see Ray and Vernon off this afternoon. Windy & Cool.
