

Finished drawing oats

Wednesday, August 16

220 DAYS PAST

F R I D A Y

137 TO COME

An Important Factor

in the relief of anemic conditions is the encouragement of corpuscular reconstruction. Pepto-Mangan (Gude) not only builds new and restores old, broken down red cells, but also increases the proportion of the vital element of these cells, i.e., the iron containing, oxygen-carrying hemoglobin.

Weather

fowler

Temp.

Mr. Chute & McConnell
helped John all day
drawing in oats, & after
dinner Mark & Clarence
helped & Mark & tacked
Maudie came home from
Eugene this afternoon.
Mr. Cox was over again
in the evening. I went
to Asluer this morning
for bread & Bert Thompson
has stung the three horses.
