

April Thursday 22 1926

Another fine day with a beautiful night again. Fixed Jean of Bendmere up after supper and retired with memories of the night before.

Friday 23

Started my earlier delivery when I got up at 3.30 or thereabouts and was home at 11.30. Had my first attempt at sleeping in afternoon. Dance at Glenora at night and Andrew Telfer offered to take me but I decided to stay home.

Saturday 24

Alb wanted me to go to town with him at night but we were late getting through and Mrs Telfer came out for a few minutes. Retired at 9.30.

April Sunday 25 1926

Arrived at Barkers at night just as the "Star" from Hamilton was going out the gate. Roscoe was there so we had quite a lively evening as per usual. Didn't get back to Bendmere until 1.30.

Monday 26

Took sick at my stomach after supper and before I got into bed had a real vomit losing all my supper and possibly my dinner. Failed to hear my alarm clock at 3.45 so had to do some stepping when I did get up.

Tuesday 27

Felt pretty dizzy at four so slept in till five. My sick stomach took all my ambition away but I managed to keep going and do the milk route myself. Finished chores up at 6.30 so we could get to bed early.
