

FRIDAY 38

eggs 85

Sunday, June 7

159 DAYS PAST

207 TO COME

October, 1906.

Dr. Jesus Lemus, Professor of the Faculty of Mexico, Mexico City, Mexico, says:

"I have received the bottle of Pepto-Mangan that you sent me. I thank you for the same. I observed its results in the case of my son, and since then have used it frequently, noticing always a great improvement, and in many cases complete recovery. Also it seems to lessen the complications so prevalent and to which is largely due the anemia that exists to such an extent in this country, and this, in my opinion, makes it the best of tonics and reconstructives.

I authorize you unconditionally to use my name as what I say is only the truth."

Rained and was cold. Very heavy  
hail storm on Wednesday. Maud  
went to town this morning with  
lettuce. Mr. + Mrs. Caverly well out  
in the evening and Maud went  
home with them to go to market.  
John was down to Sheds shingling  
and took a load to the dump.  
Ceil was over this morning. Polly  
came for some lettuce.
