

September Tuesday 7 1926

wonderful day for the Parkin family's
annual expedition to the Canadian
National Exhibition. Busy day at
Bendemeer, acting as truck driver
in afternoon. "Sheep Buyers" and
"Hite Washers" were here so we were
in getting through at night.

Wednesday 8

Another fine day. Up early and
made good time on milk route
and was home by dinner time.
Had a general clean up in dairy
in afternoon. Started to rain about
8:00 o'clock so retired early. Had
short chat with Jean over phone at
noon.

Thursday 9

Started to rain early in the morning
and rained until nearly noon then
cleared up after dinner and turned
into cold with a white frost at night.
Went to practice with Miss Easton
in her "Buick" but was home and
in bed shortly after ten o'clock.

September Friday 10 1926

Drove truck up to Geo. Telfus after 4
bags of oats after dinner and then
down after load of straw to Vanatter
farm and got stuck in wet mud
and straw near stack. Reception
for Deans Cochrane but stayed home
and retired early. Started on my 11th
month at "Bendemeer"

Saturday 11

After arrived in Paris at one o'clock
so I drove truck up after feed and hay.
Helped unload Guineys and also Guiney's
Belgians. Drove truck to town at night
and heard bangs players, singers and
magicians. Saw Jean for a minute
and home at twelve o'clock.

Sunday 12

Light shower in morning when I was
on the milk route. Jimmie and I
had a sleep after we had washed
bottles. Had a wonderful drive
with Jean when we went up home
and around the block. Home at
11:45.
