

smith to be sharpened, we took Dick down with us. We then went down to the station and got a barrel of freight which came for Aunty Alice and took it up to the house. There was a whole bunch of girls there with Win. and they wanted to go over to Martin's to see the chickens so piled in the wagon and came over with us. Aunty and Lila came over to the farm with us. This afternoon we were going to haul in the rest of the wheat but right after dinner Archie & Clark Langs, his daughter and Mrs. Jack Foster came in and paid us quite a visit so it was late by the time we got out. We got in four more jugs but there are still two or three left. About half past six the four Millmans and Aunty Alice arrived, we didn't expect them quite so soon but they said the coats were fine and they made very good time. Billy & Alm wanted to go for a swim to night so Frank and I went down with them. We went down and got Percy at the music and also Kathleen but she didn't go in we all undressed down below the park in the car except Billy who undressed & put on his bathing suit right in the car in front of the music house with Kathleen standing on the running board beseeching him to behave himself. After we had a swim Billy went in with Percy and the rest of us came over here. Alm wanted to go down to the dance so we got Enah and came

right back. Enah went into the store to see Mrs. Johnson and from there around to Hubane where Percy picked her up and took Billy & her home about ten and then left the car down at the music for Alm. I didn't go into the dance but Alm went in and Kathleen went in once or twice with him. Frank went off some where and came back in time to get a ride home. We started off for home as I thought right after the dance was over and after Kathleen and gone home and picked Dick up at the Methodist Church when Alm said he would like to take Mildred Henry for a drive. So we went around there and as Donald Ingram & Stan Sutton were there she said to come back in about ten minutes so we went up and got Dess. I thought he was just going for a short spin up the gravel but the first thing we knew we were well on the road for Sincove and went in and Alm got some sand wicks at the chip's before we came home. It was half past two before we got home, we had a good time but it was a crazy thing to do, we all went to bed in the barn as Alm was afraid to go in the house for fear of waking some body up. It has been a nice day but rained a little to night they brought news in to night that G. A. Juey was killed by the train in Hamilton.

Sunday August 10<sup>th</sup>

I wake up about five this morning by hearing Alm & Dick crawling out, they said they hadn't slept a wink all night on
