

I in Blake, Frank, Wier, Katie Spain's
husband and I were crowded into the back
seat. Charlie Martin and Miss McCoy had
the seat ahead. We went in and saw the
church and it looks pretty fancy. They are
painting a high pattern around the wall as high
^{high} as wainscoting would be and trimming around
the windows and little round pictures all
around the walls. After church Frank and
I went down to the dock and he stayed down
to Hubby's for dinner and so did Dick. I went
home to dinner. After dinner I went back and
took a picture of the mound and after a
while to daddy Lige. The grey kitten and I
went back to John W. Mrs. Mc Bride and
Dad. took him a necktie for the one he broke.
We had a look all over the new farm. There
was no hog around. We came back by
our woods and wheat field. Dick got
home about half past five and Frank about six.
Frank went up creek with Jim and walked
home from Black Creek Bridge. Daddy, Enah
and I walked down to church. I hung around after
of the words but soon came home. Frank was
greatly taken with the full moon to night he never saw
it so big.

Nothing much
doing in
except for
Mrs. Hobbs
who spent
most of his
time trying to
keep the
pitiful dog

Monday, October 9th
I saw wood most of the morning
Daddy drove Dick and Frank down to school
and got a charrel from Old Kansas to pack
apples for Uncle Hal. He is going to get them
from Mr. Dyse. Lila came over this morning
with a fat collie pup which came to them
this morning. She thought it would be a fine
farm dog but about noon a woman came
and got it. This afternoon Daddy and I
finished cleaning up the wheat. Then we
went out and ran some cross ditches in
the corner field where Daddy is going to plow.
After that Daddy and Dick brose Enah
off to the A. G. P. O. shine and they got
a wheel for the plow and then drove
around town. Frank and I kept rough
house but went to bed long before they
got home. There was a caterpillar
parrad one with black ends in my food
this morning and I did not discover him
till he had shed most of his pretty coat
into my food and it hurts like fun to night
Frog had last night and night before.
