

wrestled all night trying to decide whether they wanted a car of wire or not and hadn't decided when they broke up. Harry Smith & Steve Powell who have been the hog-buys are going to quit as the brethren are accusing them of making \$150.00 on a car. So if things continue much longer in that direction. I imagine this U. F. C. club will find itself in the rocks. I didn't go to Simcoe to night although this was to be the final game of the series and the Dover team played the "Wanderers". I heard the last car come in and a great deal of churing & racket going on with it but didn't see a soul to find out the result. I have since heard that Dover trimmed the Wanderers 13-6 and so have won the series. They say the Simcoe fellows played a very rough game and Harve Leamy got knocked out.

Thursday February 12th

Frank promised the "Women's Institute" for this night to haul them a load of gravel to-day as they were having a bee hauling gravel to build a monument to the boys up near the grove of elms they planted. As Jack Martie had our slight hauling part of his "hick in loam" up here from Fisherville, Frank went down and hauled Mr. Flemming. I went down to the orchard with Dad. This afternoon Dad & Frank went down there but it came up a very heavy & wet snow storm so they didn't stay long. Frank & Sid went down to Mrs. Fresman's & Mother's

party and I worked at my show card lessons most of the afternoon and evening. It was soft & cloudy. Mild all week.

Friday February 13th

Frank went down this morning and got another load of saw dust to put on the ice and then came over to the orchard and got a big load of wood. Dad & I trimmed up the tree they felled yesterday. This afternoon Dad & Frank worked in the orchard all the afternoon and I went to the mill and got some rolled oats and got a small load of wood on the way home. Frank drove me down town to night and he went down to Nantiack. I got my skates at Rusty's and went to hunt up some skaters but couldn't find any so I ran across a bunch of fellows going to the Women's Institute man gave me some so I went in and had a great time. Sunny & mild.

Saturday February 14th

Dad & Frank worked in the orchard all morning. I went down to the mill and got a bag of bran and stopped in at the orchard and brought a load of wood home, unboxed it and got another load but it was snowing hard and very soft. This afternoon it was snowing so much that they didn't go back to the orchard but Dad went down town and got his hair cut. I didn't do any thing much till about 10 o'clock when I started in at the chases but there had been no wind all day & pump so I waited till then in hopes that it would pump a little to let
