

Thursday October 26<sup>th</sup>

Did not do any thing much but the usual chores. Aunty & Win came over about ten and I stayed around with them till noon. Dad plowed all day. Frank went to school to-day although his toe was pretty sore. This afternoon Nipe hauled his buck-wheat. He had Jim Blake helping him. I helped them shove it away when they brought it. He put it the way to thrash here when Fred & Donald thrashes his. While they were getting loads I did nothing much but read & finished "The Old Curiosity Shop". Dick & I went down to Hubby's to-night for tea as it is Lida's birthday. Frank went there right after school & stayed all night. We came home about nine or half-past. Russell & Mary were down for a little while. His just been having his holidays. Hubby was at a political meeting in St. Williams nominating for the Provincial elections in December. Old Quint did the carrying on a chicken and had it all over the place. It has been a beautiful day to-day.

Friday October 27<sup>th</sup>

I spent most of the morning in sawing wood and finished up my pile. It was very cold all day. It snowed a little last night and was drizzling rain this morning. Daddy plowed all morning and finished soon after dinner. Then we got a load of corn and just left it in the wagon by the corn crib. I threw out most of what was in the wagon while Dad finished plowing the field. The boys' lath took their dinners. Grandpa got home about five but Dick did not get home till six. She was down watching a football game between Doves & Junco's. The score was 10 or 0. Blake has all our corn husked now and there is about a load more in the field. Dad went down town to see Aunty to-night. I sat around most of the evening and got warm and listened to Enah teach Frank all sorts of things which he was supposed to think was geography but he did not think any thing about it. I think  
guess
