285 DAYS PAST

80 TO COME

That Condition of Anemia,

due to toxic or metabolic causes, with destruction of the albuminous elements of the blood, and known as hemolytic Anemia, requires prompt and direct attention. Pepto-Mangan (Gude) reconstructs old, broken down red corpuscles and creates new ones, without disturbing digestion or causing constipation.

Weather

Temp.

A fine day
John went over & helped
Eugene trash. I drove the
buggy over as far as the factory
& then brought Billy and
the milk wagon back.
Mr Young went and helped
Lewis trash. Dr Augustine
& wife called. Mark was here
& borrowed a fork. Cecil brought
it at home.
