

Friday January 30th

Dad spent all the morning and I think most of the afternoon cutting up the pigs. Frank and I cut a piece off the steer stack and hauled it over to the horse stable. This afternoon Frank went down to the Customs office to get his Ruth Meyers Course which he sent for the other day. I hooked up and went over to Lorne Myers and to Floyd Cypalis to get them to take part in Julius Ceaser. I don't know whether they will or not as they both seemed both to tackle it. I was at Laysie quite awhile visiting with him and Hannah and listening to their Ruths phonograph. In night Frank and I went down town. Frank went to the Women's Institute dance and I spent the evening at Monteiths. Ed. Morn was over here all the afternoon. Windy and a little colder.

Saturday February 1st

Dad put the park in spikes this morning and was glad to find he could get it all in the barn. Frank and I hauled a load of hay over to the old barn and put it off. This afternoon we hauled in the more loads of corn and put two of them off over the

west hay in the old barn on top of what we hauled first. The third load we left in the sack. Enah went down town this afternoon and Dad went down to night to take Auntys a piece of pork. They had a letter from Quint saying that he hoped to be home by the end of March.

Sunday February 2nd

Frank went down to Sunday school this morning and Enah and I walked down to church. Auntys came over with Enah and Frank but I stayed down with Auntys Alice and Aunt Ida to dinner. This afternoon Mary and I went over to Miss M. Jeeves. I had tea with Auntys and Aunt Ida and I went to church. I spent the evening at the Monteiths. Lila was over here to tea with her eukalalis. Frank went down with her to night and over took me on my way home. Beautiful day, a little colder.

Monday February 3rd

We hauled in more corn to-day and got in the best of it. This afternoon Dad burned off the corner fields as it burned so well which Frank and I were putting on the last load. We put on
