

over and took Vernon and Rebecca down to see Miss. Dick spent the morning in bed. and Dad. cleaned chickens. I went back to the gully and got Nellie for them to drive to church but when they decided not to go. Dick took her and went down and brought Aunty Maude over to dinner. He then went and got Vernon who had been waiting at the Woodson's expecting them to go past to church. Then he and Dad. went down to the Lane's after the butter. Lila and Win. came over to dinner. This after noon. I took five snapshots of the two babies together. but I don't know whether they will be very successful as the sun wasn't very bright. Ray and Vernon went back the lane and then down to Mrs. Woodson's for tea. Dad. wrote to Aunty and then drove Aunty Maude home. I didn't do any thing much but went down to church to night. It has been sunny but windy and cool all day.

Monday, October 12th

Frank got up this morning about five o'clock as he said. Lila figured on making another nutting trip up to Billington's. He had to feed old Nellie and take her down to Jones' to back to the democrat. I thought I might as well get up and ride down town with him. It was just seven o'clock when we got down there and I took a walk around by the station.

and found that Marj. was leaving so I said good bye to her. I come up around by town and found Joe and Gatty Turner sitting on Anderson's steps waiting for the complement of their different parties to put in an appearance. They both had hunting coats on but Gatty ~~was~~ was armed with a shot gun. He was waiting for Billy Smith. Art. Smith evidently was expected but Gatty found him in bed when she called for him. Joe was very impatient as Hazel had promised to meet him at seven o'clock to go after Chestnut but he didn't show up. He walked over as far as Hussip corner with me growching all the way. Hubby came over but we didn't do much all day. Hubby hatched up one of the door ways leading from the shop into the ice house and we expect to put some shelves in. We also got it figured out about where we want our hen house lined to. Dick and Dad. went back this morning and drove the cattle out of the back field and Dick went over to the woods where he says he saw a black squirrel. This being Thanksgiving day. Dick had a holiday but had to go down and put the mail through or something. This banking is a dandy job alright. We had a late dinner and Ray and Vernon had to leave soon after for the station. Cuck went down later to see them off and Hubby, Liddums, Dad. and I spent the remainder of the after noon separating the ewe lambs from the old ones. We put them in the field back of the orchard but the orchard fence was so bad.
