

Came down and said to take him home as it was so late. This afternoon I cleaned out the hen house and did chores. Whitesell was in the afternoon to see Dad. about a sick horse. Thawed all day in the sun but not in the shade cold east wind.

Friday March 6th

I camped in the big chair all night last night and Dad. went to bed. I didn't go to sleep till after midnight as I wasn't at all sleepy so had a good read. I went out to the barn at 12, 3 and half past 6 and slept in the mean time, every thing was alright out there. When I woke up at half past six this morning my knee was pretty stiff but it soon limbered up. I find I have a brute of a cold due I think to getting my feet wet. We did chores this morning and Dad. put the harness on Claspay and I took him out he went fine. he started his little game of trying to turn around and go back this morning but I found out that in stead of trying to make him go ahead which to him was impossible, I just let him turn around and then pack him up in the direction I want him to go, he soon wants to turn around and when he does goes off all right in the right direction. I tried it on him several times and it worked fine every time. I took him down to Glenning's corner on the side road and then back and down to Mrs. Battersby's corner. This afternoon I had a sleep and then took what few eggs I had over to Jack Martin and was over there quite awhile. I only got sixteen eggs to day I don't know what is the matter with the hens

So night Frank and Enah went down to see "Satan" at the moving picture show I was going down but as I had such a cold I thought I would wait till to-morrow night. It snowed all day to day but didn't put much on the ground. Not very cold.

Saturday March 7th

Dad. and I sacked up 12 bags of oats this morning while Frank went down town after some salt petre to salt the pork with, then he and Dad. went down to the mill with the load. When they got back they cleaned out the rest of the horse stall and I started to chop a hole out in the chicken yard to put a post in but it was frozen too deep. This afternoon Dad. and Frank went down to the mill and got their grain and I took Claspay out while they were gone he went fine. When they got back Dad. drove Enah down town and left her there and I minded Liddams all the afternoon he slept for awhile. Frank worked at the old house and Dad. did chores when he got back so night. I went down to the moving picture show and saw "Satan" I thought it was pretty good. Cloudy and snowy but quite soft. Raw breeze

Sunday March 8th

Neither Dad nor I have been off the farm all day to day but have just done chores and sat around. We thought of hooking Claspay and Belle to the buggy and going out to the Shaws this afternoon.
