203 DAYS PAST

162 TO COME

Easily the Leader.

The ever-present problem of how best to restore the vitality and resistance of the exhausted patient must include a consideration of the preferable hematinic. **Pepto-Mangan (Gude)** is "easily leader" in this field, as it is at once palatable, tolerable, non-irritant, non-corrosive, non-constipating, almost immediately absorbable, and promptly efficient in blood reconstruction.

Weather

Temp.

Rained some about five o'clock. Maudie & Aunty went to Aylmer for the walls & to get Maudie's tooth fixed. We all went down & got some peas to eat. Boys was drawing in hay until five when the rain came. Ella washed & ironed. I had toothache. Mark cut his wheat.
