194 DAYS PAST

171 TO COME

Ivy Poisoning.

Ivy poisoning is much relieved by applications of Epsom salt. Make a saturated solution and heat to as high a temperature as is comfortable for the hand. Wring cloths out of this solution and apply under oiled silk or other air-tight covering, three or four times a day.

Weather

Temp.

I washed John went
to Kings mill & got two
tyers set on the cult wash
wheel & after dinner he
& Lawrence W. went to
Whites mill for chopp.
Engine was out the
next place all the fore
noon Billy took him
