41 DAYS PAST

324 TO COME

A Normal Supply of Oxygen

to blood and tissue is necessary to insure the "give and take" of repair and waste. When there exists an essential "iron-lack" in the blood, normal exchange and interchange is deficient in both character and extent. Pepto-Mangan (Gude) supplies the necessary hemoglobin-producing material in promptly assimilable form, in Anemic, Chlorotic and Marasmic conditions.

Weather

Temp.

Cold & bright - with a few snow flurries. Girls drove to school. I walked up to Aunt Bell's over the snow drifts, higher than the fences some place, a hard crust over the snow. Lewis brought me home, had to come around by Kingsmill could not drive through the side road. Eugene was over for dinner then dinner as his father went to Harps well. Dr Eckells was at Louisa yesterday to day 5 Mr. Howard Oley dandy
