Surgical

Convalescence

In convalescence after infectious or wasting diseases, surgical operations, etc., **Pepto-Mangan (Gude)** exerts a strong, beneficial influence because it builds up the strength of the patient, increases the appetite and stimulates digestion, owing to its powerful reconstituent and blood-forming properties.

A little warmer. Maudie & her Father has gone to Aylesbury. They are moving that little band of Ed Thompsons to day, on the Youngs place. He sold it to a Mr Robinson a junk man. We have been making Christmas presents all day.
