

on the kitchen. We were down town till noon. This afternoon we did up the chares and then went out and set up the best of the oats that were lying down. They were in bad shape either. Perce Kinsman boy came over to get three lambs which we promised him so we picked out the three biggest & one lamb and weighed them up and the best one weighed 192 lbs. He is giving us 9 cts per lb. for them. We also caught one to sell for our selves and Dad got Dickford to come over to-night and do it and give him a piece of it. It was a nice one too. Fair & cool.

Saturday, August 13th

Cecil came over first thing this morning to put the beaver board on and he and Dad have been working at it about all day and got it all on but the pitch is an awful leaking place so it all has to be painted and papered yet. Bobbie Dickford came over about ten o'clock and he and I went out and turned out all the oats and hauled in one load before dinner and three more this afternoon. He & Dad hauled the last one and finished

harvest. Dad & Cecil helped us but the loads off. We didn't get through with the chares till long after dark. Winnie came over to tea and Mr. & Mrs. Mellman came over after tea for awhile. They came up from Toronto in the car to-day. It has been fine and cool all day.

Sunday, August 14th

May, Darric, Ed. and I went down to Sunday school and Ed. & Enah went down to church. May, Darric & I heard Mr. Carmack for the first time and liked him very much. The whole Mellman family came in just after dinner on their way home. As soon as they left May, Darric and I went down and I went with the band and we gave the long suffering public a sacred concert in the park. Darric & May called on Miss McQueen and then went to Auntie's for tea. I drove down and brought them home to-night.

Monday, August 15th

May was sick in bed all day. She & Darric had planned to go to Brantford this morning but could not go to Miss McQueen's for tea to-night but instead
