323 DAYS PAST

43 TO COME

Scientific Demonstration.

Hundreds of series of hematologic examinations have abundantly demonstrated the blood constructing value of **Pepto-Mangan (Gude)** in the Chlorotic Anemia of young girls. This classical "green sickness" of the older writers is peculiarly amenable to its prompt hemoglobin creating power and general tonic and reconstructive effect.

Weather

Temp.

Thawed but a cold wind. Menas went with John Skinner this morning & they got two rabbits. Then after Mella & Menas & I went & caught two more. Eugene & I had come & put the new floor in one of the cow stalls under Gads Elgin & Lilly. Was Eugene & I had was here for dinner. Then they went home & Eugene came back after supper & brought the sheep over
