87 DAYS PAST

Thursday

279 TO COME

**The Primal Necessity**

in asthenic, anemic and generally devitalized conditions is a promptly acting and efficient hematinic, such as **Pepto-Mangan (Gude)**. Its blood-building elements are so readily absorbable and appropriable, and its palatability and general acceptability are so pronounced, as to render it the ideal hematic reconstructive.

**Weather**

**Temp.**

Raw & cold  
with west wind blowing  
hard all day & few  
snow flakes like sheet  
lets went to school. Nella  
mended & I have been  
mending nearly all day  
for her & Nella. Madeie  
said for Nelbas hat.
