

was in for awhile to have Dad. look at his horse. He told Dad. that he heard Jim. Dunker had some wood for sale at two cord, so Dad. drove Joe down to see if he could get her sled and drive down this after noon but he couldn't get in the shop and was afraid to risk driving on these icy roads, so mom shot. This after noon we started to fix up a place between the granary & cow stable for a calf pen but couldn't do much as we had no nails. Dick & I went down town after tea & took my horn down thinking there would be band practice but found when I got down that the council were treating the band to an extra supper. I suppose I could have partaken of the feast if I chose but I came home & got my skates. I put them on at the house and skated down to the pond. There were quite a few there but it was so dark I couldn't see any of their faces and I didn't think Dick was there so I skated up to the bank. Hagen was there and said Dick had just gone out with his skates on. I stayed there about half an hour and Hagen & I wrote a letter to Baldy Denton. I turned back to the pond but it was nearly deserted so I came home and found Dad had just got here before me. he had been over at Dyer's or some place, and hadn't been skating at all. Win. came over with Frank to stay all night. Miss day very much milder.

Friday January 10th

Dad. & I drove down as soon as we could get started this morning which wasn't very early to get Joe shot but the shop was full again so we had to get a few things up town including a straws knife and come home. Dad. did not know what to do as we want wood badly but he was afraid to drive Joe on the icy roads, especially after Uyea told us this morning that Tom Law lost a cow by slipping on the ice. I suppose it was his old lame one. At last I decided to try and skate down, I left here after dinner and skated down on the road all the way and was back here by before one. Jim Dunker was in Jarvis but his daughter said she thought he had wood for \$2.50 a cord and would tell him to try and bring us a load tomorrow. I slipped several times going but only fell once. There were only a few places where the skating was not fairly good, the worst place was going up & down at Ryerson's hills. We didn't do any thing in particular this after noon Bill Donald came after Dad. to go and see his horses about five o'clock. One fellow drove in while he was here and wanted to know where Anson Colver lived. Bill knew. he said he supposed that was some body after him for money. Neil Elliot & Charles McKenzie wherein to look at Fred's calf although they had just met Dad. on the road and he told them the calf was not for sale. I went down to Mrs. Gailey's for work practice to night, but there was "nothing doing". Mrs. Tuck, Miss Harding & Boozie Wadde were
