

TUESDAY 17

Thursday, April 16

107 DAYS PAST

259 TO COME

July 24, 1907.

Dr. M. D. Bloomfield, Philadelphia, Pa., says:

"I am employing Pepto-Mangan. (Gude) in the case of one of my patients at the Orphan Asylum, and while I have not had any blood count or other laboratory examination made of his condition since I placed him on the alterative, I am, however, pleased to note that the marked athrepsia is rapidly being replaced by healthy tissue, etc. He has now taken three bottles and thus far he has gained twelve pounds."

A warm lovely day (Dr. Le<sup>e</sup>  
Leay brought the nurse home  
to night & they was both here  
for tea. Maude was to  
supper, & John has been  
down to shed's helping him  
erase his house. Maude  
& I washed there Maude  
worked at the yard
