128 DAYS PAST

237 TO COME

The Care of Surgical Patients—No. 2.

Severe anemias due to hemorrhage from uterine fibroids, bleeding ulcers of the stomach and duodenum, and hemorrhoids should be treated by large doses of iron, and forced feeding. An occasional case may be suitable for transfusion shortly before the beginning of an operation.—*Balfour; Mayo Clinic, Med. Record.*

Weather *Cold rained* Temp.

about six to eight girls & I
went for water cross. John went
to Hill Eugene was over for a
load of hay. He & for dinner
Alto telephoned over & Eug
ene drove Mariah as far as
Mr. Danes's then Carlton
took him home, he had
a cow taken sick coming
in. Then Pat & Cecil took
the load of hay over. Yurbi's
I went to Aylmer, had 14
chicks out of 14 eggs
Billy 10 Polly 1/2 Mariah?
