267 DAYS PAST

98 TO COME

Functionally Active Blood Bodies

must be restored after the subsidence of the fever and acute symptoms of malarial infection. **Pepto-Mangan (Gude)** supplies organically combined iron and manganese, the twin hematinics, in such promptly absorbable and assimilable form that the blood cells and hemoglobin are rapidly renewed and reconstructed.

Weather

a fine day

Temp.

John was cutting corn all day. Girls went to school. Maude & I took Hattie home. John & Mabel went over to see Cores. Cecil boy went to the Springfield fair. Hattie finished my new silk coat today and it is a dandy. It is very cold out during the night.
