241 DAYS PAST

~~WEDNESDAY~~ 25 TO COME

A Plentiful Supply

of oxygen-bearing hemoglobin, with a sufficient number of red blood cells, is directly responsible for the immunizing power of the blood. Pepto-Mangan (Gude) stimulates and encourages hemogenesis, raises the opsonic index, and thus tends to contribute immunity to infection during the prevalence of La Grippe or other infectious disease.

Weather

Temp.

Rained off and

on all day. Manshi came

home again to night &

shed Melba went & Aylin

& the chateau to night

Melba & I went & King's mill

& got me a new silk

dress. I shed Albert was

up for water. McBeth came

& bore his well deeper.
