The Under-Nourished Child

requires a reconstructive that is rapid and certain in its action. The organic iron and manganese in **Pepto-Mangan (Gude)** are so easily tolerated by the stomach and so quickly absorbed into the blood that the appetite returns, the color improves, and strength and weight increase rapidly and appreciably.

Weather

Temp.

Warm & rained

Several times during the day, John, Cecil & Bill Brandt tried to cut wood but the rain, and so much water under foot! drove them out. John has been letting water of the road all the afternoon. The roads was so bad in some places, where the snow banks was, he could hardly draw the wagon through. Old Valentine had the few lands
