137 DAYS PAST

THURSDAY

229 TO COME

A General Nutritional Rebuilding

is essential for the relief of the general Anemia of de-vitalization, or that form of blood poverty which follows or is dependent upon general malnutrition. Pepto-Mangan (Gude) provides the material for corpuscular and hematic reconstruction, stimulates the oxygen-carrying function of the vital fluid and thus assists in the general reconstruction of the organism as a whole.

Weather

Very warm

Temp.

Girls went to school, Melba
& stayed all night with
Doris. I papered part of the
kitchen this afternoon.
Charley Marchant came
to night & killed old
Valentine, now we have
the two little lambs left
without a mother. Mr
Kitchell was here. John
has been working his corn
ground. Mariah &
