

came to the conclusion that it will not be necessary to burn it
soon. These three were all very surprised when it left but
Roy feels certain that if he had not urged them to go and had
not examined the stump himself that the outcome would have
been that Jack Martin and a few others who do not care much
have just had it torn down to be done with it. Very mild, rain a little.

Wednesday March 31st

Frank and I have been down at Preston's all day burning
brush and got the brush from 8 or 9 trees carried just by
starting a fire over the stump and carrying to it. In
this way we could burn the brush from several trees at
once. Roy, Vernon, Quenty and the two children were over here
to dinner. Quenty & Roy walked back early and whined better
than go. car they had borrowed and Enal drove Simon and
Rebecca down about five o'clock. Frank had to go over to
Jack Martin's to night to get instructions in doing his share.
Billy Mills is sick with flu and Sharron man is leaving to-
day and going up to Jack Paine's place so they are stuck
for help and Frank is going over to help old Bill go out.
Frank and I went down town to night and I went to bond practice.

Thursday April 1st

Frank was over at Jack's all morning. Dad and I
went down to Preston's this morning and burned some
more brush. This afternoon Frank and I went up

to Sam Thompsons and got a small load of hay, as we
are not going to have enough of our own to put us through
Frank got off on our way home to do up his share at
Jack's. I went down to the Lewis boys meeting to night.
I expected Manning to be there but he had been down earlier
and sent Jeff down. Jeff gave the boys a little talk. When it
was over I went around to see Margher to the other
was better. she intends leaving for home in morning for
the holidays. It has been a beautiful day today.
Bobbie & I lived to day red & white and from some first.

Friday April 2nd and Friday

Dad and I didn't go down to the orchard this morning
as we had several jobs around here to do. We moved
Bobbie and car, marked a couple of the lambs. The old
big bagged ewe had two lambs to-day but evidently has
very little milk for them so Dad brought one of them in
to house and has been feeding from a bottle. Enal
went down to church this morning and I painted a
little. It rained quite hard about noon but soon cleared
off and Dad and I went down to the orchard and burned
some more brush. It went all right once we got it started. Frank
and I went down to Alfes and borrowed his fish spear and
went back to spear pike but had no luck. although we
have heard wonderful stories of the fish being caught in
our gully this spring. Very mild all day but
it has turned colder and windy to night.
