62 DAYS PAST

303 TO COME

Surgical Suggestions.

Several deaths have followed the injection of cocaine into the urethra. It is a fact that two drachms of a 5 per cent. solution have been injected and no harm resulted, but usually a 4 per cent. solution is strong enough, and one drachm a sufficient quantity to use. Equally must care be exercised in using cocaine about the rectum. Several published formulæ for local cocaine applications have gotten physicians into trouble.—*Amer. Journ. of Surg.*

Weather

Temp.

Warmer shaved a little
The girls daddy took them to
schools, because he had to go
and get some one to saw up
but couldn't anyone. So went
for them and saw Mr
Bentley he is a going to
have Marlett come tomorrow
Earl Dance was here for supper
and Eugene have gone to Mr
Achar's. Mr Bake came this
evening & took John down to
Bob Hennessy. Got a letter from
Mrs Marchant
Billy & Dolly $\frac{1}{2}$.
