183 TO COME

Early Diagnosis of Cancer—No. 8.

Painless hematuria is frequently the initial symptom of malignant disease of the genito-urinary tract; in cases of humor of the bladder and hypernephroma of the kidney, almost always.

In cases of carcinoma and sarcoma of the kidney the initial symptom is usually pain in the region of the kidney, and this is followed by the presence of a tumor and sometimes hematuria.—McGregor; *Northwestern Lancet*.

Weather

Temp.

Warm  
Gene is still with the girls. Maudie & Gene went to Aylmer to night & Mella stayed home & helped me. Mark was over & John went home with him. Mrs Le Lay gave Maudie a bag of potatoes. I got two bags of sugar. I saw related to 25; Billy & 1/2 Maudie
