

Friday January 8th

We had Allan Law brought our ~~logs~~^{sleighs} back this morning. Dad got him to go up to Duncan's and get us a load of the rails he thought from Duncan last spring, he didn't like to sell a load as there is only about another load up there. But as we can't get back over the plowing to get any wood he said he wouldn't see us stuck so I went up and helped him put on a load. We got back a little before noon. This afternoon Dad, Enah and Liddums drove down town and I went skating for a little while. The pond is a glare of ice all over except around the edge which is all water there being only about three places connecting the land with the ice. but it is inclined to be rough. Sunny but cold with a little wind.

Saturday January 9th

Dad. drove to ~~the~~ down this morning and went in to ask Geo Henderson if Neil Elliott wanted to buy Charlotte as Dad. didn't tell him positively whether he would sell her or not the other day but just as he got home Neil and his man drove in and they not only bought Charlotte and her calf for fifty six dollars but gave us seven for Joe Lamb and took him with them. Frank Dad. & I went down right away with Charlotte. I drove ahead with the calf in the cutter and the others followed. We went up town and Dad. cashed his check and got his new suit at the tailor's. After dinner Dad. Enah and Liddums

drove down town - and got Dick some birthday presents. Frank went back to the woods and cut down some more trees. I cleaned the straw out of the hen houses and put fresh in. Bob. Ellis was in before tea representing Tyler's tea Company of London and left a sample tin here. I don't think he would have if he had been anybody else. Poor old Bob. he looks rather seedy. He has been working down at Tom. Feary's all fall. Cloudy and mild.

Sunday January 10th

We were late this morning so Frank was the only one who went to church. Dad. and I got the chores pretty well done up and we had an early dinner and celebrated Dick's birthday. This afternoon Dad. Enah. Liddums and I went out to the Shand's and were out there all the afternoon. Winnie & Lila came over just as we were starting off and so had to go back. Frank and Dick were skating on the pond all the afternoon. I think. Tonight I walked down to church. All. Hubby's family including Hubby himself were in church and I went around after ward to see them, but Hubby had gone around to see Jim Greenbury so I missed him. I wanted to say good bye to Jim especially as Jack Blessing has got him a job in one of his ^{cotton} ~~wool~~ mills in New Bedford and he is leaving on Tuesday morning so if he takes the job and stays I won't see him again maybe for a couple of years. Nice day to-day Not very sunny but mild
