

very narrow chimney which we thought was one of the effects of a
meeting between two gnomes and Jule Clark a turkey picker in an
Quint said Stuby went home and Bill and the rest of us retired
It has been nice to day a strong southwest wind all day.

Stuby said Bill had walked down
from Normandale and was nearly
"fall in" when he got to his place.
Hence the delay on Bill's part. We
soon got that load off Stuby and I
in the mow Bill on the load and Daddy
with the team. We got on fine and
Sam Robinson drove in just as we
were going to put up the first
forkfull and corrected a few errors in
the putting up. This load off all hands
went to the field and we got in three
loads before tea. After tea I did
the chores and Daddy and Bill went
and got on another load while Stuby
mowed away what was left from
before tea. I helped after I got through
and then we put off the load
they brought in for the field but did
not mow it away. We all sat out
on the grass and talked awhile and heard a

Tuesday July 11th
Stuby was over before breakfast this
morning. He and I went out right after
breakfast and mowed away the load they
put in last night. We have to do this
as there is not time to do it while they are
putting it off. Bill and Paddy went and
got another load and when Stuby and I got
done in the mow we went out in front and
worked at the lawns till they brought the
load in and then we took about half an
hour to mow it away. Then we went out
and got a big block of lawn mowed. Stuby
cut the grass with the scythe and lawn mower
and I raked. The next load and last that
was cut they left in the big barn, and
Bill took the horses and went out and mowed
till noon. Daddy drove Stuby down home
and got back at noon with some out and
kinder twine. After dinner Bill went
out and raked up what he cut this morning
